Bee Lovely *& Help* Save The Bees

British beekeepers have **lost up to 80% of their hives** in recent years, **more** than **any** other **country in Europe**

We're **donating £10,000 a year** to Bee Lovely projects

Together we've raised **over £50,000** for Bee Lovely projects

We Won! The EU passed the **world's first** continent-wide **ban of neonic** insecticides

More than **100,000 of you signed our petition** calling for a ban of neonics

Neonic insecticides are **7,000 times more toxic** than **DDT** – which was banned in 1984

Every **third mouthful of food** is thanks to bee pollination
